THE BOROUGH OF LYME REGIS.

ANNUAL REPORT OF THE MEDICAL OFFICER OF HEALTH
FOR THE YEAR.

1961

—

Telephone No.
Bridport 3172.

Health Centre,
North Allington,
Bridport.

July, 1962.

To His Worship the Mayor, Aldermen, and Councillors,
of the Borough of Lyme Regis.

Mr. Mayor, Aldermen, and Councillors,

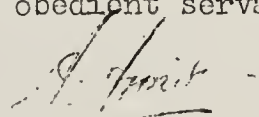

I have the honour to present to you my Annual Report for the year 1961.

The Report is set out in sections in the following order :-

	<u>Pages.</u>
Public Health Staff and Vital Statistics.	1 - 4
Sanitary Circumstances of the area.	5 - 8
Inspection and Supervision of Food.	8 - 9
Housing.	9 - 10
Prevalence of, and Control over, Infectious and other Diseases.	10 - 13
National Assistance Act. 1948.	14
Factories Acts.	15.
Riparian Local Authority.	16 - 18.

I am deeply grateful for the courtesy and consideration extended to me by Members of the Council and for the co-operation of my colleagues on the Council staff, especially Mr. Kennaugh, for his assistance in the preparation of this Report.

I am, your obedient servant,

Medical Officer of Health.

SANITARY CIRCUMSTANCES OF THE AREA.

Water Supply.

Lyne Regis obtains its water supplies from the East Devon Water Board.

Under the East Devon Water (Lyne Regis) Order 1958, the East Devon Water Board acquired the Lyne Regis District Water Company, and the Order of 1960, transferred to the Board, the Water Undertaking of the Borough of Lyne Regis on 1/12/60.

The Pinhay Development Scheme.

Stage 1 of this scheme to develop the Hartstongue spring near Lyne Regis to its full capacity of 500,000 g.p.d. was completed by the end of the year, and the second stage, comprising a 500,000 gallon reservoir at Rousdon to provide additional storage in the Lyne Regis area, was structurally completed and would be in service early in 1962.

River Abstraction.

In order to guard against any possible interruption in supplies through landslips at the Pinhay source, the Board have leased a parcel of land near Whitford Bridge on the river Axe and installed there, pumping, filltration and chlorination equipment, so that water could be taken from the river if necessary to make up any difficiency from Pinhay. The Devon River Board consented to an abstraction not exceeding 500,000 g.p.d. subject to a prescribed mininum flow of the river. An Order authorising this abstraction was published in January and as there were objections, a Public Enquiry was held in May, and the Minister's decision appears to be that he has decided to make an Order substantially on the lines submitted but limiting the power of abstraction to periods, when by reason of accident or otherwise, it is not reasonably practicable to obtain water for supply purposes from Pinhay.

Renewal of Mains.

During the winter months a number of small diameter mains and communication pipes in Lyne Regis have been replaced with spun iron pipes of not less than 3" diameter. In the summer of 1961 there were a number of complaints of inadequate supplies from various points of the built up area in the town. However, the Board have been doing a good job of work to provide a satisfactory water supply to the town.

The programme of main laying comprises - 168 yds. x 3" in Clappentail Lane, 105 yds. x 3" in Shire Lane, 100 yds x 3" in Pound Street, and in the town area, 575 yds. x 4" and 350 yds. x 3".

The Charmouth scheme involved laying 1070 yds. x 6" main, the water being boosted at Timber Hill to the Golf Links tank and then to the West Dorset Water Board's supply.

Over 95% of the houses have water laid on and the remainder are supplied from outside taps.

Drainage and Sewerage.

The developed areas of the Town are on the water borne carriage system, largely combined soil and surface, with the exception of the post war housing estate which is on the separate system, and all new properties, where practicable, are now being dealt with on the latter system. One small area, Ware Lane and one camping ground, are dealt with on septic tanks and filters. The Council's seasonal Monmouth Beach area has part water borne system and part Elsan, the latter being collected twice weekly.

Over two-thirds of the drainage of the Town is received and discharged into the sea below low water mark by the Eastern Outfall (18" cast iron sewer) across Broad Ledge, installed in 1900.

The Cobb area is dealt with by a 9" sewer discharging into a 12" cast iron sewer carried out beyond low water mark west of the Cobb. The 9" portion of this sewer, glazed stoneware pipes, is situated in the movement area of Cobb Road, and requires constant attention despite the fact that several lengths have been renewed in steel tubing over recent years. During the year 200 ft. x 10" steel tubing replacing the 9" stoneware sewer was laid and two new manholes built. A continuous colour test was made over 14 days in wet conditions during May and June but no leaks or seepages were found.

New Drains and Sewers.

On the Monmouth Plateau 120 ft of 6" water surface drain was laid, the stream diverted and 5 manholes built.

542 yards of surface water drain was carried out in connection with the provision of the Holnbush car park, and 135 yards of new sewer was laid in Clappentail park.

Outfall.

A sub-committee which had been appointed to consider the sewer outfalls and where possible, extensions, reported in December, that as a result of float tests, it was apparent that to extend these outfalls for a distance of 200 yards would not improve their efficiency. It was decided however to refer this question to the full Council for further consideration.

Public Lavatories.

Accommodation is provided for both sexes in five blocks at the Square, Marine Parade, Cobb Harbour, Monmouth Beach, one small block for men at the Victoria Pier, and also a separate block at the Monmouth Beach for the use of the Sandboy huts and caravans.

Parts of the Ladies' accommodation at the Square, the Ladies' and Gents' at the Monmouth Beach, and the Sandboy huts, are closed during the winter.

Public Cleansing.

A weekly collection is made of household and trade refuse by one lorry, and in the summer, additional collections are made in the business areas of the Town as required. The refuse is disposed of at a tip on the cliffs east of the Town. All main streets are swept daily. Gullies are cleared on the Borough roads by the Council and on Classified roads by the County Council. Litter baskets are provided in parts of the Town and beaches.

A new Karrier refuse lorry, 10 cubic yards capacity, petrol driven was purchased and came into service in May.

Rodent Control and Eradication of Vermin.

No full-time Rodent Operator is employed. One of the Council's workmen who has attended training courses, deals with the Council's drains, sewers, refuse tip and premises, and also private premises on receipt of complaints.

No. of properties inspected.....	314.
No. of properties treated.....	89.
Infestations found, Rats; (Minor).....	49.
Infestations found, Mice; (Minor).....	40.

In addition, the operator dealt with 58 wasps nests and an infestation of bats.

Petroleum Spirit.

Petroleum (Consolidation) Act. 1928.

Petroleum (Regulation) Acts, 1928 and 1936.

No. of licences granted.....	4.	No. of inspections.....	7.
Total petrol storage licensed.....	13,000 galls.	Notices served.....	Nil.

Smoke Abatement.

No action was taken under this heading.

Swimming and Bathing Pools.

There is no indoor swimming bath. Bathing takes place in the sea during the season from all beaches, and dressing accommodation is available from huts and tents on the main beach.

Fouling of Footways by Dogs.

No action was taken under the Byelaw.

Camping Sites.

There is one camping site of $7\frac{1}{2}$ acres, situated on the hill to the north of the town, with 165 caravan sites licenced for summer use only and winter storage for 150 caravans. Following the introduction of the Caravan Sites and Control of Development Act 1960, the Council laid down a schedule of conditions regarding density, fire precautions, drainage, sanitary conveniences, laundry facilities, refuse receptacles, showers etc. The site is well maintained

On the Monmouth Beach, owned by the Council, there exists a collection of day huts, caravans and chalets for summer use only. Water is supplied by standpipes at various points. On the same beach, the Council own and let 28 residential chalets for seasonal letting. These are laid on concrete foundations with asphalt paths in three terraces around walled-in lawns. Each chalet has an independent water supply, electric lighting and cooking, food cupboard, trapped sink, and drainage connected to public sewer system. Lavatory accommodation water borne, is provided at the rear in a separate block of buildings and drains to the public sewer.

Schools.

These are regularly inspected; all have piped water, water closets and washing facilities.

The Pollution of Rivers.

The Rivers (Prevention of Pollution) Act 1961 came into operation on 27th. September, 1961. The principal effect is to require the River Board's consent to all discharges existing before the commencement of the Rivers (Prevention of Pollution) Act. 1951.

Flooding.

There were no cases of flooding within the District during 1961.

In July, the Land Drainage Act, 1961 came into operation. Councils are encouraged to undertake flood prevention work in their district other than on main rivers.

Sanitary Inspections of the Area.

INSPECTION AND SUPERVISION OF FOOD.

Meat Inspection.

There is no slaughterhouse in the Borough, the retailers obtaining their meat from outside the district.

Slaughterhouse Report.

In June, 1961, the Council were informed that the Minister accepted the Council's Slaughterhouse Report subject to the following observations :-

"That representations had been made on behalf of local meat traders to the effect that, following the closure of the slaughterhouse at Skilling in the Borough of Bridport, facilities in the area covered by the Boroughs of Bridport and Lyne Regis and the Rural District of Bridport, are not considered adequate. The Minister is of the opinion that this would be a consideration for him to take into account should any application for a new slaughterhouse licence be made to the Council and referred to him under the provisions of Section 4 of the Act".

The Council raised no objection to the Minister's proposed action.

Milk Supply.

Since the beginning of the year, the responsibility for the issue of licences for the use of special designation in connection with milk, or the registration of distributors, was transferred from the Council to the Dorset County Council under the Milk (Special Designation) Regulations, 1960. The County Council, however, have continued to inform the Council where milk samples have failed to pass the prescribed test, and during the year notified that 28 samples were taken for analyses and all passed the requisite test.

In December, the Ministry of Agriculture, Fisheries and Food, notified the Council of the proposal to make an Order, specifying this district as an area within which the use of special designations in relation to milk sold by retail would become obligatory. The Council raised no objection to this proposal.

4 Dealers' licences to sell Pre-packed milk were issued.

The Milk and Dairies Regulations 1949.

It was not necessary to invoke these Regulations during the year.

Ice Cream.

No. of premises on the register for the :-

(a) Manufacture of Ice Cream.....	Nil.
(b) Storage and Sale of Ice Cream.....	27.
No. of Ice Cream premises inspected.....	27.
No. of inspections.....	29.
No. of Notices served.....	Nil.

No samples were taken for analyses.

Condensation of Food.

During the year the following foodstuffs were condemned as unfit for human consumption.

Tinned Fruit	25 lbs.	Tinned Meat	11 lbs.	Fresh Meat	5 lbs.
Tinned Vegetables	6 lbs.	Cooked Meat	9 lbs.	Poultry	3 lbs.

Number of condemnation notes issued - 14.

Food Hygiene Regulations.

Taken on the whole the standard of Food Hygiene is good. Where contravention of the Regulations has been found, this was pointed out and was remedied, the owner being co-operative in every case.

HOUSING.

No new houses were constructed by the Council, but 12 were built by Private Enterprise.

There were 49 applicants on the housing list at the end of the year.

Inspection of Dwelling Houses.

No inspected for housing defects.....	38.	No. of inspections.....	38.
No. found to be in such a state as to be prejudicial to health or dangerous and unfit for human habitation.....	14.		
No. of Informal Notices served.....	13.	Complied with.....	13.
No. of Statutory Notices served.....	14.	Complied with.....	14.
No. of houses demolished following Demolition Orders.....	2.		
No. of new houses in course of construction :-			
	(a) By Local Authority.....	Nil.	
	(b) By Private Enterprise.....	9.	

Improvement Grants.

(a) Discretionary Grants - Works were completed at premises outstanding from the previous year and a grant of £97 paid and a further grant of £512 was paid on two houses where the work had been approved and completed in 1961.

(b) Standard Grants.

Four applications were approved and the work completed in two of these. Grants paid were £102 and £121 respectively.

Two other applications were approved (one discretionary and one standard). The works were completed but the applications were withdrawn because of altered circumstances.

Underground Rooms Regulations.

Regulations made by the Council under Section 18 (2) of the Housing Act 1957 had been confirmed by the Minister at the end of the year.

Slum Clearance.

14 - 19 Silver Street. In August the Clearance Order was confirmed by the Minister.

4 Cobb Road. This property was demolished after a Demolition Order.

Cobb Cliff. This property was also demolished after a Demolition Order.

24 and 24a Church Street. An Undertaking was accepted by the Council not to re-let part of the premises until they had been brought up to the required standard of fitness.

7a and 8 Cobb Road. A Clearance Order was made but not confirmed by the Minister.

13 Silver Street. Demolition Order was made on this property.

Certificates of Disrepair.

Applications made.....Nil. Certificates issued..... Nil.

Post War Houses.

Completed by (a) L.A. 205 (b) Ministry (Prefabs) 10..... 215.
(c) Private Enterprise (Houses 161 Flats 52*)..... 213.
No. of houses owned by Local Authority..... 359.

* 12 flats provided during the year were formed from four existing houses Monmouth House 5, 16 Coombe Street 2, Lloyds Bank 2, Cliffe Hotel 3.

PREVALENCE OF, AND CONTROL OVER, INFECTIOUS AND OTHER DISEASES.

The year was a light one as far as notifiable Infectious Diseases were concerned. There were three cases of Food Poisoning in a family, due to one of the children aged 1½ years eating the cat's food which had been left on a plate in the yard overnight.

Close co-operation was maintained with the Head Teachers and School Nurses regarding the control of Infectious Diseases in schools.

Immunisation.

This is the responsibility of the Dorset County Council. When not performed by the child's own doctor, immunisation is given at the schools and Child Welfare Centre, and for older persons, immunisation against Poliomyelitis was given at special evening clinics.

The following table shows the number who were immunised.

Disease.	Primary.	3rd.	4th.	Booster.
Poliomyelitis.	98	123	190	-
Diphtheria.	38	-	-	96
